Hi Charles,

Yes, I do think we will be able to send someone. I can't confirm yet who it will be, though. I'll loop back with the program and see if I can confirm our participation for you.

Ben,

I want to let you know that Dr. Faisal Khan, the county health department director, has confirmed that he will be a panelist at the issue committee meeting.

Also, do you have any sense yet on the EPA's ability to participate?

Thanks!

Ben,

I'd like to invite you to be a panelist at the St. Louis Regional Chamber's next Energy and Environment committee meeting on **Thursday, October 29th from 7:30 – 9:00 a.m.** in the Chamber's Regional Collaboration Center. We will gather at 7:30 a.m. and the program will begin at 7:45 a.m. Our topic for the meeting is the West Lake Landfill and the goal is to provide an understanding of the context, the history, and the current situation at the landfill.

The meeting is closed press and only open to Chamber members and I expect 15 to 30 attendees at the meeting. The format of the meeting is conversational in style and we encourage questions and discussion between the committee and the panel. Each panelist would get 10 or 12 minutes to present, leaving time for Q&A and committee discussion. We have Bridgeton Mayor Terry Briggs and Russ Knocke of Republic Services confirmed as panelists and have extended invitations to the St. Louis County Health Department and Missouri DNR.

Please let me know if you would like to serve on the panel and/or if you have any questions. The best ways to reach me this week are on my cell at (314) 348-1322 or via email.
